

Clean Air Act Title V Permit Program

GOAL: Operate campus emission units in accordance with permit requirements.

LEGEND

Percent Compliance Indicates the percentage compliance with 537 permit conditions.

- Indicates the number of permit conditions with which the University is in compliance.
- Recent violations are associated with insufficient record-keeping.
- A high percentage compliance indicates campus air emission units are being optimally operated.
- No Clean Air Act violation notices (VN) have been issued during these time periods.
- The University's Title V permit, first issued in 2003, renewed in 2008, reissued in 2015, renewed in 2020 and to be reissued in 2022 has continuously driven process and management improvements over time.
