

University of Illinois MS4 Storm Sewer Permit Program

GOAL: Conduct campus operations in accordance with minimum control measures to reduce stormwater pollution.

University of Illinois MS4 Storm Sewer Permit Program

Best Management Practices Operational activities designed to improve stormwater management in order to minimize the amount of pollutants contained in stormwater runoff.

The University has developed forty-nine (49) BMPs across the following six minimum control measures:

- Public education and outreach: 6
- Public involvement and participation: 5
- Illicit discharge detection and elimination: 8
- Construction site runoff control: 8
- Post-construction stormwater management in new development and redevelopment: 5
- Pollution prevention and good housekeeping for municipal operations and maintenance: 17
